

*"After many years of dreaming, owning our own boat has become a reality thanks to the advice and support of many friends. We are now very pleased to consider Tony Newmarch among those friends. Tony came very highly recommended from a number of quarters and his manner and capability were evident within minutes of meeting. After meeting Kay in NZ and Peter and team from Windcraft Australia, we had complete confidence in the purchasing process. Subsequently, with the boat arriving, being fitted out and undergoing sea trials, Tony has helped us gain confidence in the boat's ability (and our own).*

*The Hanse 350 is a perfect size to be managed by two, with the ability to take 2-4 guests. With a background of cruising / chartering, with only recent exposure to racing, this boat has acted perfectly for us as less experienced sailors, with a straight-forward rig and stability that will see us venturing out on longer trips. The equipment and space on board is first class. Additionally, the engine is quiet, the domestic layout is excellent, and she feels larger in the main cabin than you would expect. Yet, she still receives positive attention from nearby racing crews.*

**David Davies-Payne and Marianne Scott "Wandering Hanse" Hanse 350**
